KioskOS

Hotel self check-in.
Room key in 60 seconds.

Pitch deck

November 2026

© 2026 Torcip SRL

THE PROBLEM

Nobody at the desk at 2 a.m.

Late guests wait outside
or get a door code by text message

Registration copied by hand
ID details and the police form

Online tools stop at the door
they can't hand over a key card

© 2026 Torcip SRL

THE SOLUTION

A kiosk checks guests in, 24/7.

~60 s

from arrival to room key

Open all night
no night receptionist needed

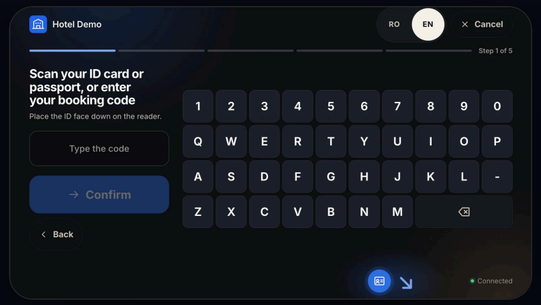

ID read automatically
registration form filled in

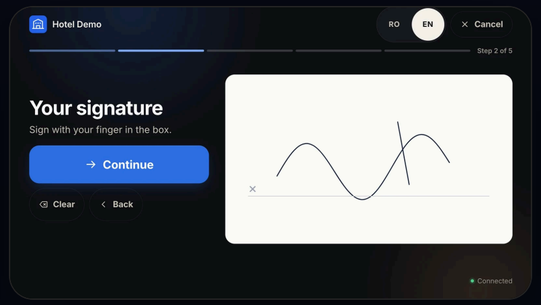

A real key card
check-out: insert the card, leave

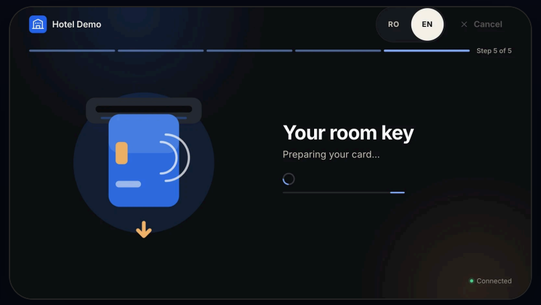

© 2026 Torcip SRL

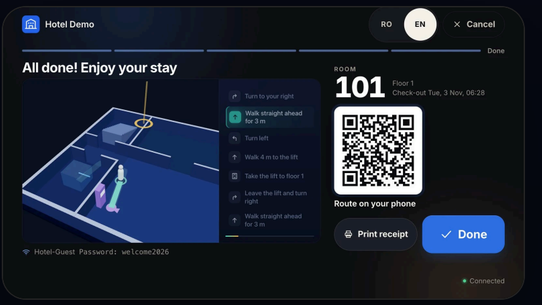

GUEST FLOW

Check-in in four steps.

1 Scan ID or passport

2 Confirm and sign

3 Take the key card

4 Follow the route

© 2026 Torcip SRL

THE HARDWARE

Real hardware. Working today.

1 Document reader
ID cards and passports

2 Key-card dispenser
issues and takes back cards

3 NFC reader
reads cards held to it

4 Receipt printer
receipt, Wi-Fi, route

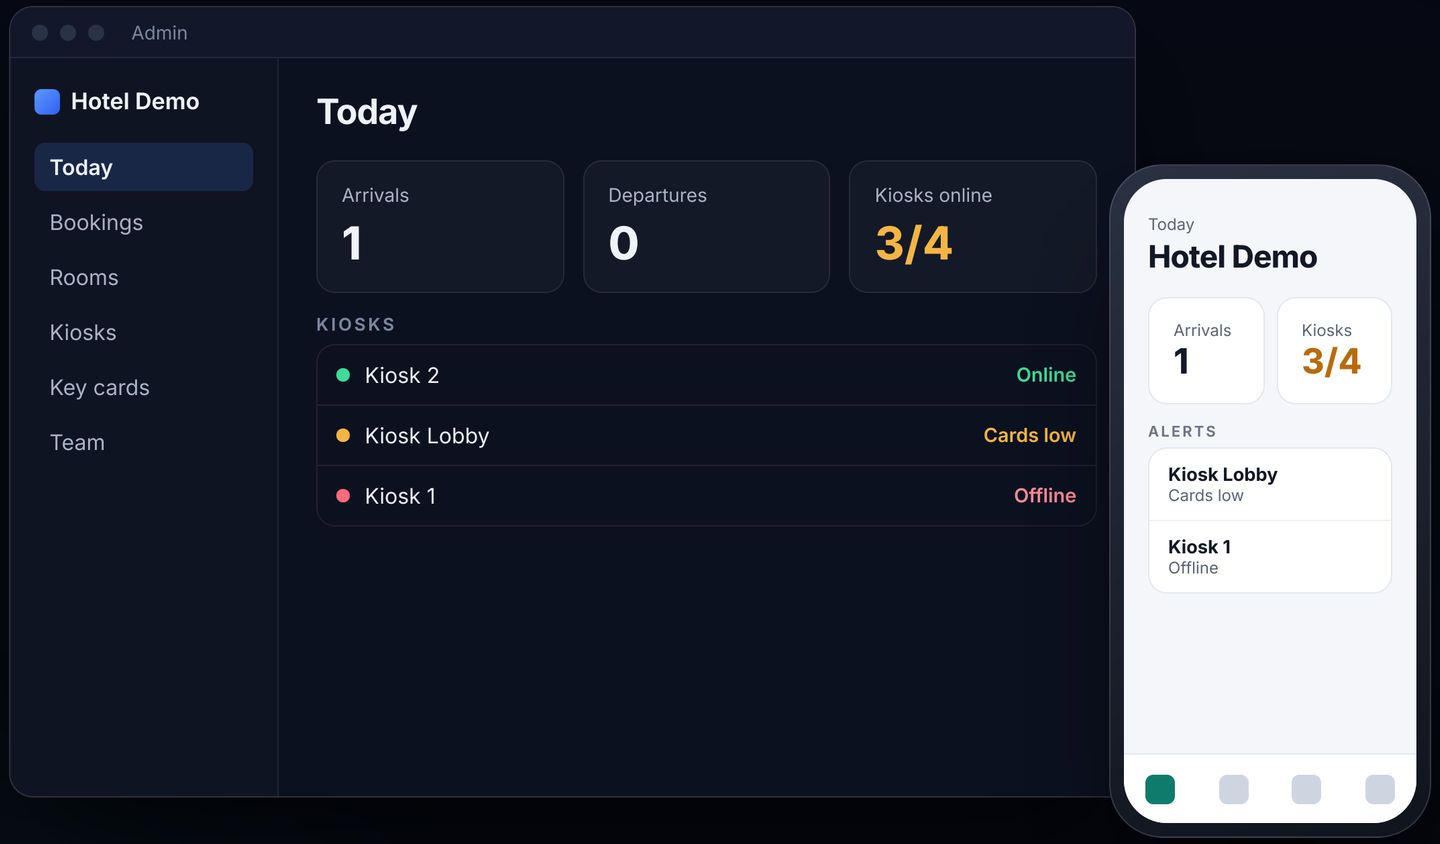

5 Cameras
RGB + infrared

6 15.6" touchscreen
Romanian and English

BOOKINGS

Bookings arrive on their own.

Booking sites

Booking.com, Airbnb:
where guests book

→

Channel manager

Channex · Beds24 ·
Smoobu, or an iCal link

→

KioskOS

the kiosk knows who is arriving

One direction: the kiosk reads reservations from the channel manager. No direct connection to Booking.com or Airbnb.
